SPST 4900 Learning Outcomes Pre-Assessment

This survey is intended to assess the intended learning outcomes and your satisfaction upon completion of the course. This assessment is anonymous, optional, and will not be associated with your grade in the course. Your PID is used only to match your initial assessment with the post assessment to determine your learning over the semester. Your results will never be attached to your name and your results and personal information will be stored confidentially.

PID: _____

Circle the most appropriate option below each statement.
